

We had so much fun in the snow last week. We enjoyed making footprints, snow balls and snow men. Some of us scooped up the snow and cleared a pathway in our outdoor area. We noticed that the snow started to melt when we touched it with our warm hands. We stayed outside until we got a bit chilly and we came inside for hot chocolate. Delicious!

We have enjoyed reading and retelling the story of The Three Bears. We added actions and thought about the different voices the characters would use. We have also mapped the story.

In Mathematics we continued to look at subtraction. We have been solving subtraction number sentences and developing our use of the vocabulary involved in subtraction. This week we have moved on to think about capacity. We have been using the language of full and empty. We have also been discussing what half full and half empty means and if they are the same thing.

We look forward to catching up with you at parent's evening. 😊
