

Our new theme, 'Creatures, great and small' has us all very excited in Reception! All classes have enjoyed creating and using our new role play areas, including a zoo and a veterinary practice.

The children have talked about what kind of things might happen for an animal to visit the vets, and how a vet might help them, such as use a bandage. Some of the children have even created their own veterinary report for the clients!

'A bear hurt his foot.'

'The dog has a bad tail.'

We have lots of exciting things to look forward to within our new theme, including hatching chicks and our summer school trip.
