

Happy New Year and welcome back. Year 3 have come back ready to learn about our new theme 'Rotten Romans'.

We have enjoyed our theme day, where we dressed as Romans. We enjoyed a range of activities. We learnt Latin, and we had to respond to the commands as we marched as a Roman army! We also created our own Roman soldier, playing roman curling and also had a Maths lesson on the Roman numerals. We had great fun, especially when we had to experience the bossy centurions!

In Maths we have started to look more at multiplication and division, comparing statements and related calculations, making sure each side of an equation is equal.

In English we have started our narrative story unit, looking at a DumSpiro text, he was a Roman messenger who had to deliver a message to the barbarians but he had an adventurous journey!

In Science we have started our forces and magnets unit, where we shared what we know and what we want to know about forces and magnets. We have very intuitive minds!

In History we have looked at creating questions to ask based on historical information we have read about the Romans, we came up with some interesting questions.

In Geography we have been developing our atlas skills as we identified the northern and southern hemispheres along with the equator and identify the UK and Rome on a map.

What we are learning next

We will continue to plan and innovate our narrative text in English, innovating each paragraph and adding better vocabulary to enhance the text.

In Maths we will continue to look at multiplication and the formal written method for multiplying numbers together.
