

## Reception News

We have really enjoyed immersing ourselves into our new story. We have read the 'Aliens Love Underpants,' books and we found them very funny. They have inspired our writing and creativity. We have enjoyed designing and making our own pants. We learnt how to do a simple straight stitch.

Our new story also inspired us to turn our role play area into a space ship. We worked together to think about where we wanted windows and doors and how we wanted to decorate it.

In maths we have continued to focus on shape. This has included naming and describing 2D and 3D shapes. We have been making shape pictures, digging in the sand for shapes, printing with shapes, making shape models, playing with magnetic shapes along with looking for shapes in the indoor and outdoor areas.

We have also been working on our music skills recently. Each class has learnt and performed different songs. We have worked hard to find the pulse and to perform with our musical instruments.
