

As we head towards half term, Year 2 have been really enjoying stepping into the shoes of Charlie Bucket and writing letters to their parents to describe the wonders they have experienced so far at Willy Wonka's Chocolate Factory (including the strange Oompa-Loompas and Mr Wonka himself!)

We wanted to discover where chocolate comes from so in Geography we had a look at the countries that grow the cacao pod and how the beans are harvested and processed to make chocolate.

In Science we have begun an experiment focusing on the importance of hygiene. This has linked to the work we have been doing on the importance of keeping healthy and exercising. We went onto the playground to create our own exercises to raise our heart rate quickly.

In Maths we have been consolidating our knowledge of 2D and 3D shapes and investigating their properties. We've been able to identify a 3D shape's faces, edges and vertices and sorted shapes according to their properties.

Coming up...

We are looking at finding fractions of shape and amounts in Maths over the next couple of weeks.

We'll also be researching Roald Dahl in our English lessons to create a biography about the famous author.

Our 'Open the Book' assemblies were a great success!
