

### Year 3 News

Welcome back, we hope you all had a good half term break and the children have returned keen to learn more about the Romans.

Before the holidays we completed our statistics unit In Maths, where we created our own bar graphs. The data for this was collected through our Intra house space team event, we were Roman soldiers and had fitness tests to complete to be accepted into the army! We had great fun!

In English we completed our Jupiter and the Bee myths, where we innovated our paragraphs and demonstrate our ability to add mastery vocabulary and a range of sentence starters and adjectives.

In Science we completed our forces unit, looking at what objects around the room were magnetic or not magnetic.

In Music we enjoyed using recorders and glockenspiels when listening to and appraising 'Three Little Birds' song. We enjoyed sing and playing the instruments.

We hope you have enjoyed Sapphire and Ruby Classes assemblies. Emerald will soon be practising ready to perform to parents.

### What we are learning next

We will continue our new unit, where we are innovating a non-chronological report on Pompeii. We have completed research on Pompeii and the history of what happened.

In Maths we will continue to look at length and perimeter, comparing and finding equivalent lengths of millimetres, centimetres and metres. We will also add and subtract lengths.
